Core & Main Expands Advanced Data Solutions Offering Via Agreement with SmartCover

ST. LOUIS, Oct. 1, 2024 – [Core & Main, Inc.](#) (NYSE: CNM), a leader in advancing reliable infrastructure with local service, nationwide, is pleased to announce it has entered into an agreement with SmartCover to sell both the SmartCover and Data Flow Systems product lines. The two organizations will work together on strategic accounts in the United States as part of Core & Main’s CORE+ Smarter Utility Solutions.

CORE+ Smarter Utility Solutions deliver advanced results through scalable technologies, technical expertise, and specialized products. CORE+ solutions provide municipalities with the resources required to add or upgrade systems to benefit utilities and their customers.

“At Core & Main, we are dedicated to empowering our customers with the latest advancements in water management,” said Wes Whitley, senior director of national sales at Core & Main. “By partnering with SmartCover, we are expanding our portfolio of advanced solutions that improve operational efficiency and support proactive maintenance strategies.”
